151.19 B4NPR BROADBAND UPDATE - A report from the Broadband Steering Group stated the contractor are to cut along the A65 at a Peasey Beck on Monday 20th January and the plan is that they will do the same on the public road at Bobbin Mill on the Sunday following. The Gatebeck Road crossing from Moss Cottage to the bungalows opposite is scheduled for early February and the team also plan to install ducting from Gatebeck Farm to Millbrook Caravan Park (route1) in February. Due to the delay in the new development and the installation of a catchment pond and drains across Gatebeck Road down to Peasey Beck it has delayed the installation of the network's head end cabinet outside the village hall to Gatebeck Farm. The team are currently exploring working on the alternative route 5 connection to Stainton. Once the Head End cabinet is connected to Stainton's network, the team can start working on connecting properties on Route 1 route from Gatebeck Farm to Millbrook Caravan Park. This is going to be very tough going as it goes through the woods and the team are looking for volunteers to help and in particular if anyone with a mini digger could give them some time with their digger. This section is urgent as Millbrook Caravan Park needs to be connected to the Gatebeck network at Gatebeck Farm by March when the holiday season starts. Once we have a connection to Millbrook work can start on connect all the properties in that area. They ask if you are able to help in any way please contact Glenn Smithers for more details or the Parish Clerk.
