

RECEIPT DIFFERENCES AS PER BOX 2

	2022/23	2023/24	difference	
				The new Unitary Council brought in a new way of charging by charging all Parish Councils a share of the total cost of the lighting bill received by them. They based the charge on how many lights each Parish had, previously they actually charged us for any work carried out to our lights. This new charging method increased ours and many other Parish Council's bills dramatically. Our bill increased as follows Parish lights: PY £2499 this year £5863. District lighting PY £555 this year £1302 total increase £4111. After pointing out the many pitfalls in this method of charging and complaining they have decided to drop this way of charging but we are still awaiting the outcome of how they are going to charge. If they revert to charging as per work carried out to our lights as requested by us our bills should drop as we will have control over the work done therefore will adjust the precept accordingly in the future. We also made cuts in other areas to address the annual increases in other charges
